

**ALESTORM**  
***The Thunderfist Chronicles***  
**June 20, 2025**

**The ultimate pirate metal adventure is about to set sail!**

Hoist the sails, sharpen your cutlasses, and fill your tankards—**ALESTORM** is back with their brand-new album, ***The Thunderfist Chronicles***, set for release on June 20, 2025 via Napalm Records! The Scottish party pirates return with their eighth album, containing eight new anthems packed with blistering riffs, wild shanty-driven melodies, and utterly ridiculous lyrics—taking the high seas of metal to new depths.

***The Thunderfist Chronicles*** arrives as the successor to **ALESTORM**’s epic seventh studio album, ***Seventh Rum of a Seventh Rum***, which peaked at #5 on both the US Current Hard Music and Top New Artist Albums charts, #7 on the German Album charts, and many others. After the release of last year’s ***Voyage of the Dead Marauder*** EP and a journey of extensive touring, the pioneering pirate metal band returned to their ship and once again teamed up with Lasse Lammert of LSD-Studios (**Gloryhammer**, **Wind Rose**) for production, recording, mixing, and mastering of ***The Thunderfist Chronicles***. The new album promises a wild ride through raging storms, absurd adventures, and epic battles across the vast ocean blue.

With explosive opener ***“Hyperion Omnidriff”***, **ALESTORM** unleashes a tidal wave of melodies that will sweep you off your feet, while ***“Killed to Death by Piracy”*** delivers thunderous choruses and crushing riffs worthy of the most legendary sea skirmish. Of course, no **ALESTORM** album would be complete without a dose of their signature humor—***“Banana”*** is a ridiculously catchy singalong banger that will turn every concert into a drunken pirate celebration. Meanwhile, ***“Frozen Piss 2”*** is packed with icy grooves and razor-sharp wit. But it’s not all just chaos and rum-fueled madness—***“The Storm”*** offers a dramatic, sweeping atmosphere, leading into ***“Mountains of the Deep”***, a grandiose, anthem-filled voyage into the ocean’s depths. Then comes the Nekrogoblikon cover ***“Goblins Ahoy!”***, a rowdy, fantasy-infused riot, before the album culminates in its climactic masterpiece: ***“Mega-Supreme Treasure of the Eternal Thunderfist”***. This colossal, 17 minute long, over-the-top epic features heroic choirs, thundering guitars, and a swashbuckling tale that will turn every pirate into a legend.

With ***The Thunderfist Chronicles***, **ALESTORM** proves yet again that they are the undisputed rulers of the seven metal seas. So, stock up on your rum—this is going to be loud, chaotic, and absolutely legendary!
